The Difference is Personal

The value of an assisted living facility is based not only on its design and appearance, but also on the quality and compassion of its staff. At Hazel Cypen Tower, we've assembled a highly experienced team, one that embraces the family philosophy underlying all the care provided on our campus. Our care plan is designed to help people who need some supervision or assistance with everyday activities such as eating, showering, dressing or taking medications, but who do not require continuous skilled nursing care. These services are provided by our professional staff of Certified Nursing Assistants and supervised by licensed nurses.

Conveniences and Amenities

The difference between a good assisted living facility and a great one are the amenities, hurricane preparedness plan, programs and offerings available to the tenants. We think you'll be impressed with what's available to you as a tenant of Hazel Cypen Tower, including scheduled courtesy transportation to and from doctors' appointments, shopping and entertainment, plus convenient on-campus tram service to wherever you need to go. In the event of a major storm, you could not be in a more secure place.

Traffic and parking are never a problem as our air-conditioned bus transports you in style to the opera, ballet, theater, museums, even the latest movies, all at subsidized prices - or free.
